'83 Call for Participation	182
----------------------------	-----

**SIGGRAPH '82**

## Introduction

Welcome to SIGGRAPH '82. The SIGGRAPH '82 Committee has tried to provide you with the biggest and best SIGGRAPH conference yet. I would like to thank each of the Committee members for all their work to make this conference a success and each of their employers for their support of SIGGRAPH '82. Please take a few minutes to read each of the names and affiliations on the following pages.

Subsequent sections of this Program describe the SIGGRAPH '82 Special Events, Courses, Technical Programs, Vendor Forum, and Exhibition in detail. If you have any questions, please feel free to contact any Committee member for assistance.

I hope you enjoy SIGGRAPH '82 and your stay in Boston.

**Elaine L. Sonderegger**  
General Chairman

## SIGGRAPH: The Organization

SIGGRAPH is the Special Interest Group on Computer Graphics of the Association for Computing Machinery (ACM). The 9000 members share an interest in the theory, design, implementation, and application of computer-generated graphics and interactive techniques to facilitate man/machine communication and understanding. There are local SIGGRAPH chapters in Boston, Los Angeles, Philadelphia, Princeton, and Washington, D.C. Annual membership dues include a subscription to "Computer Graphics," the group's newsletter, and are \$10.00 for ACM members and associate members, \$5.00 for ACM student members, \$25.00 for non-ACM members, and \$30.00 for subscriptions. Requests for membership applications should be addressed to:

Association for Computing Machinery  
11 West 42nd Street  
New York, New York 10036  
212 869-7440.

The present SIGGRAPH officers are:

**Thomas DeFanti**, Chairman

**Norman I. Badler**, Vice Chairman

**Maxine D. Brown**, Secretary

**Sara A. Bly**, Treasurer

**James E. George**, Past-Chairman

**Pat Cole**, Director

**Robert A. Ellis**, Director

**Stephen R. Levine**, Director

**Bary W. Pollack**, Editor-in-Chief

## **Committee/Staff**

### **GENERAL CHAIRMAN**

Elaine L. Sonderegger

### **TECHNICAL PROGRAM**

R. Daniel Bergeron

University of New Hampshire

Carl Machover

Machover Associates Corp.

### **COURSES**

Robert H. Ewald

Los Alamos National Laboratory

### **EXHIBITS**

Richard N. Spann

Adage, Inc.

### **TREASURER**

Paul J. Murphy

Lexidata Corporation

### **GRAPHIC DESIGN AND PRINTING**

James C. Ver Hague

Rochester Institute of Technology

### **PR AND ADVERTISING**

M. Clare Moulton

Adage, Inc.

### **LOCAL ARRANGEMENTS**

Alyce Branum

### **VISUAL PRESENTATIONS**

Thomas DeFanti

University of Illinois at Chicago Circle

### **ART SHOW**

Copper Giloith

Real Time Design, Inc.

### **FILM AND VIDEO SHOWS**

Lou Katz

University of California at Berkeley

### **PRELIMINARY PROGRAM**

Chris Herot

Computer Corporation of America

### **FINAL PROGRAM**

James Barood  
Xerox Webster Research Center

### **VENDOR FORUM**

Sherry Keowen  
Vector General

### **USER GROUPS**

John E. French, Jr.  
Exxon Production Research Co.

### **T-SHIRTS**

Susan Hartwig-Hood  
Megatek Corporation

### **STUDENTS**

Paul Painter  
Agency Record Control, Inc.

### **RECORDING SECRETARY**

Marilynn Bever  
Wang Laboratories, Inc.

### **TECHNICAL PROGRAM COMMITTEE**

John Beatty  
University of Waterloo

Ingrid Carlbon  
Schlumberger-Doll Research

James H. Clark  
Stanford University

Donald P. Greenberg  
Cornell University

Lansing Hatfield  
Lawrence Livermore National Laboratory

Bob Hopgood  
Rutherford Appleton Laboratory

James C. Michener  
Intermetrics, Inc.

Bary Pollack  
Vulcan Systems

## **Committee/Staff**

Richard Riesenfeld  
University of Utah

Peter Tanner  
National Research Council of Canada

James J. Thomas  
Battelle Pacific Northwest Laboratory

Turner Whitted  
Bell Laboratories

### **COURSES COMMITTEE**

Maxine Brown  
ISSCO

Michael Dearing  
University of Wisconsin-Madison

Robert Earley  
Los Alamos National Laboratory

Raymond Elliott  
Los Alamos National Laboratory

Bertram Herzog  
Herzog Associates, Inc.

LeVonne Hoerr  
Los Alamos National Laboratory

Virginia Romero  
Los Alamos National Laboratory

James J. Thomas  
Battelle Pacific Northwest Laboratory

### **ART SHOW COMMITTEE**

Louise Etra  
General Electronic Systems, Inc.

Darcy Gerbarg  
New York University

Aaron Marcus  
Lawrence Berkeley Laboratory

## **FILM AND VIDEO COMMITTEE**

Larry Cuba  
Independent Artist

Ken Knowlton  
SRI International

Rodney Stock  
Lucasfilm, Ltd.

Gene Youngblood  
California Institute of the Arts

## **EXHIBITS MANAGEMENT**

Henry T. Cronan  
Robert T. Kenworthy, Inc.

## **CONVENTION SERVICES MANAGEMENT**

Cynthia Stark  
Smith, Bucklin & Associates, Inc.

Joy H. Lee  
Smith, Bucklin & Associates, Inc.

## **PR AND ADVERTISING MANAGEMENT**

Lynn Schultz  
Smith, Bucklin & Associates, Inc.

## **VISUAL PRESENTATIONS MANAGEMENT**

Jane Veeder  
Electronic Visualization Center

Philip Morton  
Electronic Visualization Center

## **AUDIO/VISUAL CONSULTANT**

Jack Coffman  
Coffman, Coffman, Coffman, Inc.

## **ADMINISTRATIVE SUPPORT**

Summagraphics Corporation

## Conference at a Glance

- 24 concurrent one- or two-day courses. Monday and Tuesday.
- State-of-the-art technical sessions. Wednesday through Friday.
- Exhibition of graphics hardware and software by industry vendors. Tuesday through Thursday.

## Special Events

### ■ ART SHOW

The SIGGRAPH '82 Art Show is located in the Liberty Suite of the Sheraton-Boston Hotel. This year's exhibition highlights the recent achievements of artists working with computers. Selections include photo enlargements, prints, sculpture, drawings, film, video, and installations. A catalog of the Art Show is available at the exhibition and at the Merchandise Sales desk.

The Art Show is open Monday, July 26, from 10 a.m. to 10 p.m. and Tuesday through Thursday, July 27-29, from 8 a.m. to 8 p.m. Admission is free.

### ■ ATTENDEE SCREENINGS

The Audio/Visual staff will project attendee films and videotapes in the Hynes Auditorium during lunch hour on Wednesday, Thursday, and Friday. The shortest works have priority, so bring your shortest and best to the Audio-Visual staff in the Hynes Auditorium after the morning Technical Sessions.

### ■ BIRDS-OF-A-FEATHER

The Beacon E and Beacon G rooms of the Sheraton-Boston Hotel are available for "birds of a feather" meetings Wednesday, Thursday, and Friday. A sign-up board is provided in the conference registration area at Hynes Auditorium.

### ■ EXHIBITION OPENING CEREMONY

A short ceremony will mark the opening of the seventh annual SIGGRAPH exhibition on Tuesday, July 27 at 10:00 a.m. The ceremony will take place at the first level entrance to the exhibit hall in Hynes Auditorium. Come join the crowd and see it happen - everyone is invited.

### ■ FILM AND VIDEOTAPE SHOWS

Films and videotapes selected by the Film and Video Committee are being shown on

Tuesday and Wednesday evenings. Both showings are at 8:00 p.m. in the Hynes Auditorium, and will utilize the latest in high-intensity video projection, plus 16mm and 35mm film projection.

Tuesday's showing, "Oldies but Goodies," consists of computer graphics from the recent and distant past, and includes material of historical interest, as well as recent material previously seen at SIGGRAPH conferences.

Wednesday's showing, "Latest and Greatest," consists of material produced in the past year. Examples of computer graphics from motion pictures, commercials, computer art and technically-oriented visuals will be shown.

#### ■ **SIGGRAPH EXECUTIVE COMMITTEE MEETING**

The SIGGRAPH Executive Committee meets Thursday from 2:45 p.m. to 6:00 p.m. in the Board Room of the Sheraton-Boston Hotel. All attendees are invited to observe and participate in this meeting of the SIGGRAPH organization.

#### ■ **SOCIAL ACTIVITIES**

A course reception is scheduled on Monday evening, July 26, beginning at 7:30 p.m. at the Sheraton-Boston Hotel. One complimentary ticket is included in the course registration fee. Additional tickets may be purchased at the conference registration area for \$35 each. The course registration fee also includes a luncheon for each course day registered.

A technical program reception will be held on Thursday evening, July 29, beginning at 7:00 p.m. at the Museum of Science. One complimentary ticket is included in the technical program registration fee. Additional tickets may be purchased at the conference registration area for \$40 each.

## Special Events

### ■ USER GROUP MEETINGS

#### **THURSDAY (July 22)**

##### **SDRC GRAPHICS SOFTWARE USER GROUP**

##### **(GENERAL ELECTRIC CAE INTERNATIONAL)**

9:00 a.m. - 5:00 p.m.

Lafite Room, Hotel Meridien

Michelle Ritz, (513) 576-3800

#### **FRIDAY (July 23)**

##### **SDRC GRAPHICS SOFTWARE USER GROUP**

##### **(GENERAL ELECTRIC CAE INTERNATIONAL)**

9:00 a.m. - 5:00 p.m.

Lafite Room, Hotel Meridien

Michelle Ritz, (513) 576-3800

#### **MONDAY (July 26)**

##### **APPLICON USER GROUP**

5:30 p.m. - 1:00 a.m.

Beacon B, Sheraton-Boston

Beverly A. DiChiara, (617) 272-7070

##### **EVANS & SUTHERLAND USER GROUP**

1:00 p.m. - 4:00 p.m.

Beacon C, Sheraton-Boston

Ted Naanes, (801) 582-5847

#### **TUESDAY (July 27)**

##### **AGE (ADAGE GRAPHICS EXCHANGE)**

9:00 a.m. - 5:00 p.m.

Adage, Inc., One Fortune Drive,  
Billerica, MA

Jerry Ornstein, (617) 667-7070

##### **APPLICON USER GROUP**

8:00 a.m. - 12:00 p.m.

Beacon B, Sheraton-Boston

Beverly DiChiara, (617) 272-7070

**VEGUS (VECTOR GENERAL USER GROUP)**

6:00 p.m. - 9:00 p.m.

Embassy Suite, Colonnade Hotel

Sherry Keowen, (213) 346-3410

**WEDNESDAY (July 28)**

**AED USER GROUP (ADVANCED ELECTRONICS DESIGN, INC.)**

9:00 a.m. - 11:00 a.m.

Republic Ballroom, Sheraton-Boston

Robin Ratajczak, (408) 733-3555

**TERAK USER GROUP**

1:00 p.m. - 3:00 p.m.

Commonwealth Room, Sheraton-Boston

Jerry Grady, (602) 998-4800

**UGCS (GRAPHIC COMPATABILITY SYSTEM USER GROUP)**

6:00 p.m. - 9:00 p.m.

Republic Ballroom, Sheraton-Boston

Joseph H. Bristow, (303) 635-5753

**VIM APPLICATIONS AND GRAPHICS PRODUCTS COMMITTEE (CONTROL DATA CORPORATION)**

3:00 p.m. - 5:00 p.m.

Fairfax B, Sheraton-Boston

Peggy Brehm, (602) 231-1502

**THURSDAY (July 29)**

**IKONAS USER GROUP**

9:00 a.m. - 12:00 p.m.

Embassy Suite, Colonnade Hotel

Mary C. Whitton, (801) 848-8701

**MOVIE BYU (BRIGHAM YOUNG UNIVERSITY)**

5:00 p.m. - 7:00 p.m.

Republic Ballroom, Sheraton-Boston

Hank Christiansen, (801) 378-6325

## Courses

## Course Information

The courses are held at several different locations on Monday, July 26, and Tuesday, July 27. The location of each course is given in the program. Shuttle buses will run between the conference hotels and the course locations.

Courses start at 9:00 a.m. on Monday, July 26, and at 8:30 a.m. on Tuesday, July 27. The courses end at 4:30 p.m. on Tuesday to allow a visit to the Exhibition.

Refreshments are served during morning and afternoon breaks in areas adjacent to the course locations.

Luncheons are served each course day in areas near the course locations. Luncheon ticket(s) are included in your registration packet.

Registration to one or more courses admits you to the Exhibition, Vendor Forum, Film and Videotape Shows, and Art Show free of charge.

One set of notes is included in your course registration. Additional sets of course notes can be purchased at the conference registration area in Hynes Auditorium.

## Courses at a Glance

The courses are divided into two categories: tutorials and seminars. A **tutorial (T)** is an introductory level course where a great deal of emphasis is given to the teaching of fundamental principles. A **seminar (S)** is a special topic course, often presented at a more advanced level.

Please refer to the key for course site locations.

COURSES	MON. JULY 26	TUES. JULY 27	SITE
<b>GENERAL COURSES</b>			
1. Introduction to Computer Graphics (T)			1
2. Low-Cost Graphics (T)			4
3. Computer Graphics Hardware (T)			1
4. The Application of Computer Graphics to Engineering, Scientific, & Design Problems (T)			6
5. Introduction to Raster Graphics (T)			1
6. Psychology for User-Computer Interfaces (T)			1
7. How to Design User-Computer Interfaces (T)			1
8. Device-Independent Graphics Software (T)			1
<b>ANIMATION/VISUAL SYNTHESIS</b>			
9. Two-Dimensional Computer Animation (T)			★
10. Advanced Image Synthesis (S)			6
11. Introduction to TV, Film, Video, Printing (S)			1
12. Three-Dimensional Computer Animation (S)			★
13. State-of-the-Art in Image Synthesis (S)			6

### MONDAY TOPICS

#### ■ **INTRODUCTION TO COMPUTER GRAPHICS (1)**

Sheraton - Grand Ballroom

**CHAIRMAN: Marceli Wein**

National Research Council of Canada

#### **SPEAKERS:**

**Ron Baecker**, Human Computing Resources

**Peter Tanner**, National Research Council of Canada

**Marceli Wein**, National Research Council of Canada

**Alain Fournier**, University of Toronto

#### **TOPICS: Part I of a two-day course**

Introduction & Tutorial Outline/ Baecker

Basic Software/ Tanner

Basic Hardware I/ Wein

Basic Hardware II/ Wein

Raster Hardware/ Tanner

Advanced Software I/ Fournier

#### ■ **LOW-COST GRAPHICS (2)**

Colonnade - Huntington

**CHAIRMAN: Richard L. Phillips**

University of Michigan

#### **SPEAKERS:**

**Richard L. Phillips**, University of Michigan

**H. L. Loats, Jr.**, ECO Systems International, Inc.

**James George**, Los Alamos National Laboratory and Mesa Graphics

**Thomas DeFanti**, University of Illinois at Chicago Circle

#### **TOPICS: Part I of a two-day course**

Computer Graphics Overview/ Phillips

Applications of the Apple II and

Apple III/ Loats

Low-Cost Hardcopy/ George

ZGRASS Graphics on the UV1/ DeFanti

■ **COMPUTER GRAPHICS HARDWARE (3)**

Sheraton - Constitution

**CHAIRMAN: John Staudhammer**

University of Florida

**SPEAKERS:**

**John Staudhammer**, University of Florida

**John Tartar**, University of Alberta

**TOPICS: Part I of a two-day course**

Light, Vision, Colorimetry and CRT

Devices/ Staudhammer

Architecture, Video Buffering, Image

Storage/ Tartar

Raster Systems/ Staudhammer

Input/ Output Devices/ Tartar

■ **THE APPLICATION OF COMPUTER GRAPHICS TO ENGINEERING, SCIENTIFIC, AND DESIGN PROBLEMS (4)**

Copley - Oval

**CO-CHAIRMEN:**

**Robert Ellis**, Boeing Computer Services

**David Kasik**, Boeing Computer Services

**SPEAKERS:**

**Robert Ellis**, Boeing Computer Services

**David Kasik**, Boeing Computer Services

**Del Coates**, Del Coates Associates

**Richard J. Littlefield**, Battelle Pacific

Northwest Laboratory

**TOPICS: Part I of a two-day course**

Introduction/ Ellis, Kasik

Overview of Computer Graphics/ Ellis

Computer Graphics and Engineering

(Analysis, Information Presentation, and

General Support)/ Ellis

Computer Graphics and Engineering

(CAD/CAM)/ Kasik

Computer Graphics and Industrial Design/

Coates

## Courses

### ■ **INTRODUCTION TO RASTER GRAPHICS (5)**

Sheraton - Independence

**CHAIRMAN: Donald Greenberg**

Cornell University

#### **SPEAKERS:**

**Donald Greenberg**, Cornell University

**Ted Crane**, Cornell University

**Roy A. Hall**, Cornell University

**Gary W. Meyer**, Cornell University

**John C. Dill**, Cornell University

#### **TOPICS:**

Introduction/ Greenberg

Raster Concepts/ Crane, Hall

Frame Buffer Architecture/ Crane, Hall

Raster Performance Issues/ Meyer

Low Level Graphics/ Dill

Raster Algorithms/ Greenberg

Color and Color Spaces/ Greenberg

Illumination Models and Reflections/  
Greenberg

Anti-aliasing/ Hall, Meyer

Applications/ Dill

### ■ **PSYCHOLOGY FOR USER-COMPUTER INTERFACES (6)**

Sheraton - Republic

**CHAIRMAN: Jack Grimes**

ITT

#### **SPEAKERS:**

**Jack Grimes**, ITT

**H. Rudy Ramsey**, ITT

#### **TOPICS:**

Introduction/ Grimes

Brief History of Human Factors/ Ramsey

Requirements Analysis, Part I/ Grimes

Requirements Analysis, Part II/ Ramsey

Functional Design/ Ramsey

Dialogue Design, Part I/ Grimes

Dialogue Design, Part II/ Ramsey

Workstation Design/ Grimes

Questions and Answers/ Grimes, Ramsey

■ **TWO-DIMENSIONAL COMPUTER ANIMATION (9)**

Hynes - Room 200

**CHAIRMAN: Marc Levoy**

Cornell University and Hanna-Barbera Productions

**SPEAKERS:**

**Marc Levoy**, Cornell University and Hanna-Barbera Productions

**Alvy R. Smith**, Lucasfilm Ltd.

**Chris Odgers**, Cornell University and Hanna-Barbera Productions

**Edwin Catmull**, Lucasfilm Ltd.

**Duane Palyka**, New York Institute of Technology

**Bruce Wallace**, Cornell University and Hanna-Barbera Productions

**Rodney Stock**, Lucasfilm Ltd.

**TOPICS:**

General Introduction/ Levoy

Painting Programs/ Smith

Color Palette Generation/ Smith

Introduction to Video/ Odgers

Video Scanning Hardware/ Odgers

Scan and Paint Systems/ Levoy

Automatic Inbetweening/ Catmull

Artist/User Considerations/ Palyka

Image Transformation and Merging/ Wallace

Image Transformation Hardware/ Stock

Video Recording Hardware/ Odgers

Film Recording Hardware/ Catmull

Panel Discussion/ Staff

■ **ADVANCED IMAGE SYNTHESIS (10)**

Copley - Ballroom

**CHAIRMAN: J. Turner Whitted**

Bell Laboratories

**SPEAKERS:**

**J. Turner Whitted**, Bell Laboratories

**Henry Fuchs**, University of North Carolina

**Frank Crow**, Ohio State University

**Nelson Max**, Lawrence Livermore National Laboratory

## Courses

### TOPICS:

Overview/ Whitted  
Rendering Part I/ Fuchs  
Rendering Part II/ Whitted  
Anti-aliasing/ Crow  
Image Synthesis on Supercomputers/ Max

### ■ INTRODUCTION TO TV, FILM, VIDEO, PRINTING (11)

Sheraton - Commonwealth

#### CHAIRMAN: Stephen R. Levine

Electronic Graphics Associates

#### SPEAKERS:

**Stephen R. Levine**, Electronic Graphics Associates

**Faber Birren**, Author, Color Consultant, and Lecturer

**Robert Kushner**, K Graphics

**John Blunden**, Lawrence Livermore National Laboratory

**Bruce E. Brown**, Software Development Computer Assisted Engineering

### TOPICS:

Human Vision/ Levine  
A Videotape, "Graphic Harmony"/ Polaroid Corporation  
Color and Human Response/ Birren  
Ink on Paper—The Printing Process/ Kushner  
The Technology of Film/ Blunden  
The Technology of Video/ Brown  
Special Visual Effects/ Demonstration/ Levine

### ■ GRAPHIC DESIGN AND INFORMATION GRAPHICS (14)

Meridien - Salon Margaux

#### CHAIRMAN: Aaron Marcus

Lawrence Berkeley Laboratory

#### SPEAKER:

**Aaron Marcus**, Lawrence Berkeley Laboratory

**TOPICS: Part I of a two-day course**

Introduction/ Marcus

Elementary Principles/ Marcus

Proportion and Composition/ Marcus

Letterforms and Symbols/ Marcus

■ **PRESENTATION/PUBLICATION  
QUALITY GRAPHICS (15)**

Park Plaza - Plaza Room

**CHAIRMAN: Joel Orr**

Orr Associates, Inc.

**SPEAKERS:**

**Joel Orr**, Orr Associates, Inc.

**Anders Vinberg**, ISSCO

**Steven King**, Scitex America Corporation

**Diane Julian**, Xerox Corporation

**Larry Martin**, Dicomed

**TOPICS:**

Integrating Visual Information with Textual  
Information/ Orr

Layout Intelligence/ Vinberg

Producing Publication-Quality Color Graphics  
from your Data Base/ King

Electronic Publishing/ Julian

Film Systems/ Martin

■ **DISTRIBUTED GRAPHICS AND  
COMMUNICATIONS (17)**

Park Plaza - Imperial Room

**CHAIRMAN: Griffith Hamlin**

Los Alamos National Laboratory

**SPEAKERS:**

**Griffith Hamlin**, Los Alamos National  
Laboratory

**Andries van Dam**, Brown University

**Robert M. Dunn**, R. M. Dunn Associates

**David Nelson**, Apollo Computer Inc.

**David Cheriton**, Stanford University

**William Pford**, Bell Laboratories

## Courses

### TOPICS:

Overview/ Hamlin  
Dynamic Distribution of Programs for Satellite Graphics Systems/ van Dam  
Partitioning Graphics Functions/ Dunn  
Communications for Local Networks and the Architecture of the Apollo Domain Network/ Nelson  
High Level Graphics Protocols in the Stanford Network Graphics Project/ Cheriton  
Distributed Graphics for the Bell System/ Pferd  
Summary/ Hamlin

### ■ **DEMOGRAPHICS: MAPPING, MARKETING, AND COMPUTER GRAPHICS (21)**

Park Plaza - Georgian

**CHAIRMAN: Robert T. Aangeenbrug**  
University of Kansas

### SPEAKERS:

**Robert T. Aangeenbrug**, University of Kansas

**George F. McCleary**, University of Kansas

**Waldo R. Tobler**, University of California-Santa Barbara

### TOPICS:

Introduction and Review of Computer Mapping/ Aangeenbrug  
Benefits and Justification/ Aangeenbrug  
Case Study/ Staff  
The Practice of Mapping and Cartography - Map Design/ McCleary  
Case Study/ Staff  
The Practice of Mapping and Cartography - Hardware/Software/ Tobler  
Geometry and Mapping/ Tobler  
Case Study/ Staff  
Geographic Information Systems/ Aangeenbrug  
Problem Areas, Review and Questions/ Aangeenbrug, McCleary, Tobler

■ **INTRODUCTION TO COMPUTER-AIDED DESIGN (22)**

Marriott - Ballroom, Salon E

**CHAIRMAN: Bertram Herzog**

Herzog Associates, Inc.

**SPEAKERS:**

**Bertram Herzog**, Herzog Associates, Inc.

**Robert Heilman**, Ramtek, Inc.

**David Weisberg**, Auto-trol Corporation

**S. H. Chasen**, Lockheed Georgia Company

**Patrick Hanratty**, MCS

**R. Lee Whitney**, CADAM, Inc.

**Stephen Weiner**, Computervision Corporation

**Howard W. Fisher**, Intergraph Corporation

**Charles F. Raber**, Gerber Systems

Technology, Inc.

**Jerry W. Adams**, McAuto Corporation

**R. M. McElhaney**, GRAFTEK

**Charlotte Hudgin**, A. M. Bruning

**John Trefz**, Sigma Design Incorporated

**Brian Woolsey**, Phoenix Automation, Inc.

**J. Farkas**, Bodine Corporation

**Howard Shrobe**, MIT

**Michael H. Liewald**, Boeing Commercial

Airplane Company

**Richard M. Mueller**, Control Data

Corporation

**Herbert B. Voelcker**, University of Rochester

**Richard F. Riesenfeld**, University of Utah

**R. M. Dunn**, R. M. Dunn Associates, Inc.

**TOPICS: Part I of a two-day course**

Introduction/ Herzog

The Functional Elements of a CAD System/  
Heilman

Developments in Display Technology for  
CAD/ Weisberg

How to Justify a CAD System/ Chasen

Vendor Talks I

MCS/ Hanratty, CADAM/ Whitney

Computervision/ Young, Auto-trol/ Weisberg

Vendor Talks II

Intergraph/ Fisher

Panel Discussion/ Staff

## Courses

- **SOLID MODELLING (23)**  
Marriott - Ballroom, Salon H

### **CO-CHAIRMEN:**

**Herbert Voelcker**, University of Rochester

**Aristides A. G. Requicha**, University of Rochester

### **SPEAKERS:**

**Aristides Requicha**, University of Rochester

**Herbert Voelcker**, University of Rochester

**Robert Tilove**, General Motors Research Laboratories

**Malcolm Sabin**, CAD Centre, UK

**George Allen**, McDonnell Douglas Automation

**Michael Wesley**, IBM T. J. Watson Research Center

### **TOPICS:**

Fundamentals I: Representations and Systems/ Requicha

Fundamentals II: Algorithms and Applications/ Voelcker

Representations and Algorithms for Unsculptured Objects/ Tilove, Sabin

User Interfaces/ Allen

New Construction Techniques and Applications for Solid Models/ Wesley

Discussion/ Staff

## **TUESDAY TOPICS**

### ■ **INTRODUCTION TO COMPUTER GRAPHICS (1)**

Sheraton - Grand Ballroom

**CHAIRMAN: Marcell Wein**

National Research Council of Canada

#### **SPEAKERS:**

**Ron Baecker**, Human Computing Resources

**Peter Tanner**, National Research Council of Canada

**Marcell Wein**, National Research Council of Canada

**Alain Fournier**, University of Toronto

#### **TOPICS: Part II of a two-day course**

Advanced Software II/ Fournier

Graphics Input and Interaction Techniques I/ Baecker

Graphics Input and Interaction Techniques II/ Baecker

Software Packages and Graphic Standards/ Wein

Dynamics/ Tanner

Color and Color Perception/ Fournier

SIGGRAPH '82 Preview/ Tanner

### ■ **LOW-COST GRAPHICS (2)**

Colonnade - Huntington

**CHAIRMAN: Richard L. Phillips**

University of Michigan

#### **SPEAKERS:**

**Richard L. Phillips**, University of Michigan

**H. L. Loats, Jr.**, ECO Systems International, Inc.

**James George**, Los Alamos National Laboratory and Mesa Graphics

**Thomas DeFanti**, University of Illinois at Chicago Circle

#### **TOPICS: Part II of a two-day course**

Graphical Input/ Phillips

Interactive Graphics/ Phillips

Low-Cost Workstations/ Phillips

Graphics on the IBM Personal Computer

## Courses

### ■ **COMPUTER GRAPHICS HARDWARE (3)**

Sheraton - Constitution

**CHAIRMAN:** John Staudhammer

University of Florida

**SPEAKERS:**

**John Staudhammer**, University of Florida

**John Tartar**, University of Alberta

**TOPICS: Part II of a two-day course**

Graphics Systems I/ Tartar

Graphics Systems II/ Tartar

High Resolution Displays/ Staudhammer

Recording and Photography/ Staudhammer

### ■ **THE APPLICATION OF COMPUTER GRAPHICS TO ENGINEERING, SCIENTIFIC, AND DESIGN PROBLEMS (4)**

Copley - Oval

**CO-CHAIRMEN:**

**Robert Ellis**, Boeing Computer Services

**David Kasik**, Boeing Computer Services

**SPEAKERS:**

**Robert Ellis**, Boeing Computer Services

**David Kasik**, Boeing Computer Services

**Del Coates**, Del Coates Associates

**Richard J. Littlefield**, Battelle Pacific

Northwest Laboratory

**TOPICS: Part II of a two-day course**

Computer Graphics in Scientific Research/  
Littlefield

Guide to SIGGRAPH '82 Conference and  
Exhibition/ Ellis, Kasik

Tour Exhibition

### ■ **HOW TO DESIGN USER-COMPUTER INTERFACES (7)**

Sheraton - Republic

**CHAIRMAN:** James Foley

The George Washington University

**SPEAKERS:**

**James Foley**, The George Washington University

**TOPICS:**

Introduction, Design Methodology/ Foley  
Guidelines for Designers/ Foley  
Software Implementation Tools/ Foley

■ **DEVICE-INDEPENDENT GRAPHICS SOFTWARE (8)**

Sheraton - Independence

**CHAIRMAN: Theodore N. Reed**

Los Alamos National Laboratory

**SPEAKERS:**

**Theodore N. Reed**, Los Alamos National Laboratory

**James R. Warner**, Precision Visuals, Incorporated

**Peter R. Bono**, Athena Systems, Incorporated

**TOPICS:**

Introduction to Morning Session/ Reed  
Principles of Device-Independent Graphics Software/ Warner  
Architecture of Device-Independent Graphics Systems/ Reed

## Courses

### ■ **THREE-DIMENSIONAL COMPUTER ANIMATION (12)**

Hynes - Room 200

**CHAIRMAN: Bill Kovacs**

Robert Abel and Associates

**SPEAKERS:**

**Bill Kovacs**, Robert Abel and Associates

**Norman Badler**, The University of Pennsylvania

**David Zeltzer**, Ohio State University

**Lance Williams**, New York Institute of Technology

**Craig Reynolds**, Information International, Inc.

**TOPICS:**

Introduction/ Kovacs

Model Driven Animation/ Badler

3-D Movement Simulation/ Zeltzer

Interactive Motion Design/ Kovacs

3-D Animation at New York Institute of Technology/ Williams

Animation Scripting at Information International, Inc./ Reynolds

### ■ **STATE-OF-THE-ART IN IMAGE SYNTHESIS (13)**

Copley - Ballroom

**CHAIRMAN: Edwin Catmull**

Lucasfilm Ltd.

**SPEAKERS:**

**Edwin Catmull**, Lucasfilm Ltd.

**James Blinn**, Jet Propulsion Laboratory

**Robert Cook**, Lucasfilm Ltd.

**Loren Carpenter**, Lucasfilm Ltd.

**TOPICS:**

Introduction/ Catmull  
3-D Transformation of Raster Image—  
Standards for Image Quality/ Catmull  
Advanced Simulation for Science and Space  
Computer Animation/ Blinn  
Shading Model in Realistic Image Synthesis/  
Cook  
Stochastic Modelling in a Case Study and  
Image Synthesis/ Carpenter  
Film

■ **GRAPHIC DESIGN AND INFORMATION  
GRAPHICS (14)**

Meridien - Salon Margaux

**CHAIRMAN: Aaron Marcus**

Lawrence Berkeley Laboratory

**SPEAKER:**

**Aaron Marcus**, Lawrence Berkeley  
Laboratory

**TOPICS: Part II of a two-day course**

Color/ Marcus  
Charts and Graphs/ Marcus  
Maps/ Marcus  
Diagrams/ Marcus

■ **GRAPHICAL DATA BASES (16)**

Park Plaza - Imperial Room

**CHAIRMAN: Doug Neal**

Decision Resources

**SPEAKERS:**

**Douglas B. Neal**, Decision Resources  
**Terence Kuch**, Decision Resources

## Courses

### TOPICS:

Integration of Computer Graphics and Information Management/ Neal, Kuch  
Historically, Separate Development of Computer Graphics and Data Bases/ Neal, Kuch  
Graphics Presentation of Information to Top Management/ Neal, Kuch  
Graphics-Assisted Interrogation of Information by Analysts/ Neal, Kuch  
Information Resource Management and Graphics/ Neal, Kuch  
Expeditious Retrieval of Information/ Neal, Kuch  
Benefits of Graphics-Data Base Linkage/ Neal, Kuch  
Trade-offs and Information Strategies/ Neal, Kuch  
Case Studies/ Neal, Kuch  
Recently Introduced DBMS-Graphic Linkage Systems/ Neal, Kuch

### ■ **BUSINESS GRAPHICS FOR MANAGERS (18)**

Park Plaza - Georgian

### **CHAIRMAN: James E. George**

Los Alamos National Laboratory and Mesa Graphics

### **SPEAKERS:**

**James E. George**, Los Alamos National Laboratory and Mesa Graphics

**Alan Paller**, AUI Data Graphics

**Norma Frye**, Digital Equipment Corporation

**Jack Gottlieb**, Business and Professional Software

**Bary Pollack**, Vulcan Systems

### **TOPICS:**

Organization and Introduction to Business Graphics/ George  
Justifying Computer Graphics/ Paller  
Artists and Computer Graphics: How to Manage Both!/ Frye  
Business Graphics on Personal Computers/ Gottlieb, George  
Local Networks and Computer Graphics/ Pollack  
Business Graphics Technology Update/ Paller

■ **INTRODUCTION TO THE SIGGRAPH  
'82 EXHIBITION (19)**

Sheraton - Commonwealth

**CHAIRMAN: Stephen R. Levine**

Electronic Graphics Associates

**SPEAKERS:**

**Stephen R. Levine**, Electronic Graphics Associates

**Bruce E. Brown**, Software Development  
Computer Assisted Engineering

**TOPICS:**

Introduction/ Levine

Application Stories/ Levine

Introduction and Overview of Graphics

Hardware/ Brown

Introduction and Survey of Software

Packages/ Brown

Software, Systems and Standards/ Brown

High Performance Graphics Hardware/ Levine

■ **COMPUTER GRAPHICS IN OFFICE  
AUTOMATION AND ELECTRONIC  
PUBLICATION (20)**

Park Plaza - Plaza Room

**CHAIRMAN: Michael P. Barnett**

Brooklyn College

**SPEAKERS:**

**Michael P. Barnett**, Brooklyn College

**Robert Thunelius**, Resource Dynamic, Inc.

**Robert S. Varga**, Xybion Corp.

**Roger S. Tobie**, ICC GraphCom System, Inc.

**TOPICS:**

Workshop Overview/ Barnett

Computer Graphics as an Office Design

Tool/ Thunelius

Graphic Displays in an Integrated Office/

Varga

Interactive System to Typeset Pictures and

Text/ Tobie

## Courses

### ■ INTRODUCTION TO COMPUTER-AIDED DESIGN (22)

Marriott - Ballroom, Salon E

#### **CHAIRMAN: Bertram Herzog**

Herzog Associates, Inc.

#### **SPEAKERS:**

**Bertram Herzog**, Herzog Associates, Inc.

**Robert Heilman**, Ramtek, Inc.

**David Weisberg**, Auto-trol Corporation

**S. H. Chasen**, Lockheed Georgia Company

**Patrick Hanratty**, MCS

**R. Lee Whitney**, CADAM, Inc.

**Stephen Weiner**, Computervision Corporation

**Howard W. Fisher**, Intergraph Corporation

**Charles F. Raber**, Gerber Systems  
Technology, Inc.

**Jerry W. Adams**, McAuto Corporation

**R. M. McElhaney**, GRAFTEK

**Charlotte Hudgin**, A. M. Bruning

**John Trefz**, Sigma Design Incorporated

**Brian Woolsey**, Phoenix Automation, Inc.

**J. Farkas**, Bodine Corporation

**Howard Shrobe**, MIT

**Michael H. Liewald**, Boeing Commercial  
Airplane Company

**Richard M. Mueller**, Control Data  
Corporation

**Herbert B. Voelcker**, University of Rochester

**Richard F. Riesenfeld**, University of Utah

**R. M. Dunn**, R. M. Dunn Associates, Inc.

#### **TOPICS: Part II of a two-day course**

Vendor Talks III

Gerber/ Raber, McAuto/Adams,  
GRAFTEK/ McElhaney

Vendor Talks IV

Bruning/ Hudgin, Sigma Design/ Trefz  
Phoenix/ Woolsey, Bodine/ Farkas

VLSI: How to Make a Big Chip in a Week/  
Shrobe

Interconnections and IGES/ Liewald

Integrated CAD/CAM Approach/ Mueller

Developments in Solid Modelling/ Voelcker

Developments in Sculptured Surface Repre-  
sentations/ Riesenfeld

A Look Into the Future/ Dunn

Panel Discussion/ Staff

■ **FREEFORM SURFACES (24)**

Marriott - Ballroom, Salon H

**CHAIRMAN:** Richard F. Riesenfeld,  
University of Utah

**SPEAKERS:**

**Richard F. Riesenfeld**, University of Utah

**William J. Gordon**, Drexel University

**Elaine Cohen**, University of Utah

**Jeffrey M. Lane**, Calma/ GE

**A. Robin Forrest**, University of East Anglia,  
UK

**TOPICS:**

Introduction/ Riesenfeld

Introduction to Computer-Aided Geometric  
Design/ Riesenfeld

Using Projectors To Construct Surfaces/  
Gordon

Subdivision Methods for Curves and  
Surfaces/ Cohen

Display Techniques for Curves and Surfaces/  
Lane

User Aspects for Freeform Surface Design/  
Forrest

Comments/ Riesenfeld

# Technical Program

The SIGGRAPH '82 technical program is held on Wednesday, July 28, through Friday, July 30.

The technical program is composed of 37 presentations in eleven paper sessions plus eleven panels including the Presidents' Forum. Each time slot in the program is allocated to two concurrent sessions — a panel and a paper session.

All eleven paper sessions are held in the Hynes Auditorium and all eleven panel sessions are held in the Sheraton-Boston Grand Ballroom.

Refreshments are served during morning and afternoon breaks in areas adjacent to the sessions.

Each technical program attendee receives one copy of the SIGGRAPH '82 proceedings plus a supplement containing papers selected for publication in the ACM Transactions on Graphics. Each technical program attendee also is admitted to the Exhibition, Vendor Forum, Film and Videotape Shows, and Art Show free of charge.

## **WEDNESDAY TOPICS**

9:00-10:00

### **OPENING SESSION**

Hynes Auditorium

### **SIGGRAPH '82 WELCOME**

Elaine Sonderegger

### **SIGGRAPH REPORT**

Thomas DeFanti

### **COURSES SUMMARY**

Robert H. Ewald

### **TECHNICAL PROGRAM PREVIEW**

R. Daniel Bergeron, Carl Machover

### **SIGGRAPH AWARDS PROGRAM**

Pat Cole

## Technical Program

10:15-12:00

### **IMAGE GENERATION**

Hynes Auditorium

#### **CHAIRMAN:**

**James H. Clark**, Stanford University

Clamping: A Method of Anti-Aliasing Textured Surfaces by Bandwidth Limiting in Object Space

Alan Norton, IBM Thomas J. Watson Research Center, Alyn P. Rockwood and Philip T. Skolmoski, Evans and Sutherland Computer Corporation

A More Flexible Image Generation Environment

F.C. Crow, Ohio State University

Anti-Aliasing Through the Use of Coordinate Transformations

Kenneth Turkowski, CADLINC, Inc.

Light Reflection Functions for Simulation of Clouds and Dusty Surfaces

James F. Blinn, Jet Propulsion Laboratory

10:15-12:00

### **PANEL:**

#### **The Impact of Graphic Standards**

Sheraton-Boston Grand Ballroom

#### **CHAIRMAN:**

**David Straayer**, Tektronix, Inc.

This panel will discuss the recent progress towards ANSI standards for functional graphics and CAD data transfer. Primary emphasis will be placed on the impact of these standards upon the user.

#### **PANELISTS:**

**Tom Wright**, ISSCO Graphics

**David Shuey**, McAuto Corporation

**Bruce Cohen**, Intel Corporation

**Bradford M. Smith**, National Bureau of Standards

**Theodore N. Reed**, Los Alamos National Laboratory

1:30-3:00

**EUROGRAPHICS SESSION:  
Graphic Standards**

Hynes Auditorium

**CHAIRMAN:**

**Robert Hopgood**, Rutherford Appleton  
Laboratory

The Detailed Semantics of Graphics Input  
Devices

David S. H. Rosenthal, Edinburgh University

James C. Michener, Intermetrics, Inc.

Gunther Pfaff, Technische Hogeschool  
Darmstadt

Rens Kessener, Technische Hogeschool  
Eindhoven

and Malcolm Sabin, FEG, Limited

A Metafile for Efficient Sequential and  
Random Display of Graphics

Theodore N. Reed, Los Alamos National  
Laboratory

Graphics Standardization

Paul ten Hagen, Mathematisch Centrum,  
Amsterdam

Graphic Standards for Three-Dimensional  
Modelling

Malcom Sabin, FEG, Limited

1:30-3:00

**PANEL:  
Professional Workstations**

Sheraton-Boston Grand Ballroom

**CHAIRMAN:**

**Andries van Dam**, Brown University

The panel will examine the evolution of the professional workstation from a time-shared terminal to a powerful graphics-based personal computer connected to a resource-sharing local network. The panelists will speculate on the future evolution of both the hardware/software architecture and end-user environment.

## Technical Program

### PANELISTS:

**James H. Clark**, Stanford University

**Robert M. Dunn**, R.M. Dunn Associates

**Harvey Kriloff**, Boeing Computer Services

**David Nelson**, Apollo Computer, Inc.

3:15-4:45

### MODELLING

Hynes Auditorium

### CHAIRMAN:

**Donald Greenberg**, Cornell University

An Inversion Algorithm for Geometric Models  
**Martti Mantyla**, Helsinki University of  
Technology

Generation and Display of Geometric Fractals in  
3-D

**Alan Norton**, IBM Thomas J. Watson Research  
Center

A New Triangulation Method for Planar  
Contours

**S. Ganapathy and T. G. Dennehy**, University of  
Michigan

Creating Volume Models from Edge-Vertex  
Graphs

**Patrick M. Hanrahan**, University of Wisconsin

3:15-4:45

### PRESIDENTS' FORUM

Sheraton-Boston Grand Ballroom

### CHAIRMAN:

**Carl Machover**, Machover Associates

Presidents of four leading computer graphics  
companies, representing hardware, software  
and systems products, will discuss problems  
and opportunities which confront the rapidly  
growing computer industry.

### PANELISTS:

**Donald Feddersen**, Applicon Corporation

**Ralph T. Linsalata**, Lexidata Corporation

**Peter Preuss**, ISSCO Graphics

**Richard N. Spann**, Adage, Inc.

## **THURSDAY TOPICS**

9:00-10:30

### **USER INTERFACE**

Hynes Auditorium

#### **CHAIRMAN:**

**James J. Thomas**, Battelle Pacific  
Northwest Laboratory

Flair-User Interface Dialog Design Tool  
Peter C.S. Wong and Eric R. Reid, TRW  
Defense Systems Group

A User Interface Management System  
David Kasik, Boeing Computer Services

The Device Model of Interaction  
Ed Anson, Northeastern University

Star Graphics: An Object-Oriented Implementation  
Daniel E. Lipkie, Steven R. Evans,  
John K. Newlin, and Robert L. Weissman,  
Xerox Corporation

9:00-10:30

#### **PANEL:**

### **The Graphics CAD/CAM Industry: Financial Perspectives**

Sheraton-Boston Grand Ballroom

#### **CHAIRMAN:**

**Richard N. Spann**, Adage, Inc.

Companies supplying graphics CAD/CAM components and systems form an important high technology business segment. Panelists representing four financial perspectives will discuss market entry, financing, segment performance and shareholder expectations. Development of the graphics CAD/CAM industry in the 80's will be a unifying theme.

#### **PANELISTS:**

**Frederick R. Adler**, Adler & Co.

**Thomas P. Kurlak**, Merrill Lynch

**Joseph C. McNay**, Essex Investment  
Management Co.

**Margaret A. Reichenbach**, L. F. Rothschild,  
Unterberg, Towbin

## Technical Program

10:45-12:00

### **HARDWARE ARCHITECTURE**

Hynes Auditorium

#### **CHAIRMAN:**

**Turner Whitted**, Bell Laboratories

The Geometry Engine: A VLSI Geometry System for Graphics

James H. Clark, Stanford University

A Contour Display Generation Algorithm for VLSI Implementation

Michael J. Zyda, Washington University

A Rectangular Area Filling Display System Architecture

Daniel S. Whelan, California Institute of Technology

10:45-12:00

### **PANEL:**

#### **Approaches to Solid Modelling**

Sheraton-Boston Grand Ballroom

#### **CHAIRMAN:**

**Leon Malin**, MAGI

Solid modelling systems in current use are based on approaches that are fundamentally different. The panelists will discuss the advantages and disadvantages of the different approaches, especially from the user's point of view.

#### **PANELISTS:**

**Frank Bliss**, Ford Motor Company

**William Carmody**, IBM Corporation

**Robert Johnson**, Consultant

**Martin Schloessel**, Applicon, Inc.

**John Swarbrick**, General Electric Company

1:30-2:30

**VISIBLE SURFACE ALGORITHMS**

Hynes Auditorium

**CHAIRMAN:**

**Kellogg Booth**, University of Waterloo

Path Specification and Path Coherence,  
Kim L. Shelley and Donald Greenberg,  
Cornell University

Special Purpose Automatic Programming for  
Hidden Surface Elimination  
Chris Goad, Stanford University

1:30-2:30

**PANEL:**

**Voice Recognition as an Input Technique**

Sheraton-Boston Grand Ballroom

**CHAIRMAN:**

**Richard Rabin**, Verbex Div., Exxon

Voice input offers a major potential for improving the productivity of users of computer graphics systems. Panelists will discuss applications in CAD/CAM and other interactive graphics systems. Experiences in developing, installing and operating such systems will be described.

**PANELISTS:**

**Matthew Peterson**, Computervision

**Sue Schedler**, G.E./Calma

**Mark Robillard**, Sanders Associates

**Alan R. Strass**, General Electric Company

## Technical Program

### 2:45-3:45 **DATA BASE APPLICATIONS**

Hynes Auditorium

#### **CHAIRMAN:**

**Bary Pollack**, Vulcan Systems

Context-Sensitive, Graphic Presentation of Information

Mark Friedell, Jane Barnett and David Kramlich, Computer Corporation of America

Graphical Tools for Interactive Image Interpretation

David M. McKeown, Jr. and Jerry L. Denlinger, Carnegie-Mellon University

MAPQUERY: Data Base Query Language for Retrieval of Geometric Data and its Graphical Representation

Andre Frank, Swiss Federal Institute of Technology

### 2:45-3:45 **PANEL: The Challenge of CAD/CAM Education**

Sheraton-Boston Grand Ballroom

#### **CHAIRMAN:**

**Michel A. Melkanoff**, UCLA

Since few universities have experience teaching CAD/CAM, they have difficulty meeting industry needs for graduates trained in the use or implementation of CAD/CAM systems. This panel attempts to outline the problems in developing more extensive CAD/CAM emphasis in education and the role the university can or should play in addressing industry needs in this area.

#### **PANELISTS:**

**Donald Greenberg**, Cornell University

**Victor Langer**, Milwaukee Area Technical College

**Frank Puhl**, CADAM, Inc.

**Mark S. Shepard**, RPI

**Herbert Voelcker**, University of Rochester

4:00-5:00

**APPLICATIONS**

Hynes Auditorium

**CHAIRMAN:**

**Ingrid Carlbom**, Schlumberger-Doll Research

3D Galatea: Entry of Three-Dimensional Moving Points from Multiple Perspective Views  
Steven A. MacKay, Richard E. Sayre, and Michael J. Potel, University of Chicago

A Morphological Study of the Form of Nature  
Yoichiro Kawaguchi, Nippon Electronics College

An Interactive Graphics Environment for Architectural Energy Simulation  
Jon H. Pittman and Donald P. Greenberg, Cornell University

4:00-5:00

**PANEL:**

**Graphic Input Interaction Techniques**

Sheraton-Boston Grand Ballroom

**CHAIRMAN:**

**James J. Thomas**, Battelle Pacific Northwest Laboratory

The techniques for communicating with graphics systems including interaction and effective presentation techniques are becoming active research subjects. The SIGGRAPH sponsored workshop on graphic input interaction techniques (June 1982) will be summarized and reviewed.

**PANELISTS:**

To be selected after the Graphic Input Interaction Techniques Workshop.

# Technical Program

## FRIDAY TOPICS

9:00-10:30

### **CURVED SURFACE DISPLAY**

Hynes Auditorium

#### **CHAIRMAN:**

**Richard Riesenfeld**, University of Utah

Ray Tracing Parametric Patches  
James T. Kajiya, California Institute of  
Technology

An Algorithm and Data Structure for 3D Object  
Synthesis Using Surface Patch Intersections  
Wayne E. Carlson, The Ohio State University

Scanline Rendering of Parametric Surfaces  
Dino Schweitzer and Elizabeth S. Cobb,  
University of Utah

A Generalization of Algebraic Surface Drawing  
James F. Blinn, Jet Propulsion Laboratory

9:00-10:30

#### **PANEL:**

### **Business Graphics: What is it?**

Sheraton-Boston Grand Ballroom

#### **CHAIRMAN:**

**David Luther**, Lexidata Corporation

What really is business graphics? Is it narrowly  
confined to making slides or does it encompass  
the full range of information transfer? The  
panel will present the views of hardware and  
software vendors and users.

#### **PANELISTS:**

**Irwin Jarett**, Irwin Jarett, CPA, Ltd.

**Howard Johnson**, Digital Equipment  
Corporation

**Jack Russell**, General Motors Corporation

**John Thompson**, Precision Visuals, Inc.

10:45-12:00

**PAINT AND ANIMATION**

Hynes Auditorium

**CHAIRMAN:**

**Peter Tanner**, National Research Council of Canada

The Message is the Medium: Multiprocess Structuring of an Interactive Paint Program  
Richard J. Beach, John C. Beatty, Kellogg S. Booth, and Darlene A. Plebon, University of Waterloo, Eugene L. Fiume, University of Toronto

Computer Animation with Scripts and Actors  
Craig W. Reynolds, Information International Inc.

Color Image Quantization for Frame Buffer Display  
Paul S. Heckbert, New York Institute of Technology

10:45-12:00

**PANEL:**

**The Role of Videotex**

Sheraton-Boston Grand Ballroom

**CHAIRMAN:**

**Frank Tompa**, University of Waterloo

Interactive Videotex systems may soon emerge as a principal information, entertainment, and communications medium relying heavily on computer graphics. The purpose of this session is to introduce Videotex literature and research to mainstream graphics audiences. Topics include a brief outline of Videotex developments, current architecture, business experiences, alternatives to Videotex and future expectations for Videotex.

**PANELISTS:**

**Brian Botten**, Extel Computing, Ltd.

**David Godfrey**, University of Victoria

**John Norton**, Norpak, Ltd.

**Lois Schneider**, CBS

**Andries van Dam**, Brown University

## Technical Program

1:30-2:45

### **RASTER SYSTEMS**

Hynes Auditorium

#### **CHAIRMAN:**

**James C. Michener**, Intermetrics, Inc.

A Language for Bitmap Manipulation

Leo J. Guibas, Xerox PARC, and Jorge Stolfi,  
Stanford University

A Device Independent Graphics Imaging

Model for Use with Raster Devices

John Warnock and Douglas K. Wyatt,  
Xerox PARC

A Conceptual Model of Raster Graphics  
Systems

James Acquah, James Foley, John Sibert, and  
Patricia Wenner, The George Washington  
University

1:30-2:45

### **PANEL:**

#### **Health & Safety Issues in Computer Graphics**

Sheraton-Boston Grand Ballroom

#### **CHAIRMAN:**

**Wordie Parr**, NIOSH

The increasing use of computer graphics as a production tool requires increased investigation into the possible health and safety effects of prolonged use of CRT devices and other related equipment. This panel will address some of the recent results that have been obtained in this area and will attempt to identify areas that require more study.

#### **PANELISTS:**

**William H. Cushman**, Eastman Kodak Co.

**David Sliney**, US Army Environmental  
Hygiene Agency

**W. M. Zuk**, Health and Welfare Canada

**R. C. Peterson**, Bell Laboratories

Adage will be exhibiting two minicomputer-compatible Adage 4100 Graphics Workstations reacting with two- and three-dimensional data bases. Various Adage interactive console devices, such as lighted function switches, variable control dials, data tablets, joysticks and light pens, will be shown. An Adage local hard copy unit also will be featured. Demonstrations will include dynamic three-dimensional rotation with depth cueing, zoom, two and three-dimensional hardware windowing, circle arcs, and Z axis clippings. These interactive demonstrations will cover several application areas, including Computer Aided Design, Finite Element Modeling, and Computer Aided Engineering.

Booth 2437 **ADVANCED COLOR TECHNOLOGY, INC.**

Chelmsford, MA 01824  
(617) 256-1222  
ROBERT G. MANNING  
Vice President-Sales**

The ACT 1 Color Copier makes low cost color copies of color images displayed on computer graphic terminals. The dot-addressable ACT 1 is about the size of an office typewriter and uses an ink-jet printing technology to produce multicolor images on paper in less than two minutes for an 8½" x11" print. Using the basic colors of cyan, magenta and yellow, the ACT 1 can produce up to 125 color shades while printing up to a width of 12½" on roll or fanfold paper. The ACT 1 allows up to 250 continuous copies per roll of paper.

AED, manufacturers of DEC compatible disk controllers and intelligent color graphics terminals, will display their AED512 color system along with the new AED767 color terminal. The new 767 features anti-aliasing built into the firmware and has additional features such as 1K x 1K x 8 virtual address space with a 768 x 575 viewing window, ellipse and arc generators, stipple-filled rectangles, blue-lined cross reference grid, 16.8 million colors and much more. Also featured is the new AED Design Console, which is a packaged system that turns the AED512 or 767 into an integrated workstation minus applications software. Included is ergonomically designed furniture, CPU of your choice, a variety of disk storage options, integrated alphanumeric display, keyboard, joystick and data tablet.

**Booth 2416 ALTEK CORP.**

**2150 Industrial Parkway  
Silver Spring, MD 20904  
(301) 622-3906  
\*LOWELL NERENBERG  
Director of Sales & Marketing**

Altek began manufacturing digitizers in 1970. Their products are used widely in cartographic mapping applications — where accuracy and dependability are most critical. The Datatab<sup>®</sup> free curso digitizer is well known for its long term reliability and accuracy. Available in sizes from 12"x12" to 42"x60", Altek will exhibit a 36"x48" model with resolution of .001", accuracy of  $\pm .003$ ", and variable intensity backlighting.

## Exhibitor Listing

Altek will demonstrate its simple, low-cost digitizer controller alongside the SUPER-DISK® intelligent controller for graphic and photogrammetric digitizing applications.

### Booth 2718 **AMDEK CORP.**

CADLINC develops, manufactures and markets graphic computers and CAD/CAM related software. Headquarters are in Chicago, with Advanced Research and Development in Palo Alto, Calif., and product engineering in Troy, Mich. The company's products include a series of Graphic computers that form building blocks for sophisticated networked graphics systems. The series has been specifically designed for interactive graphic application environments such as text processing, CAD/CAM, process control and software design. Target markets include both OEM and end-user engineering workstations. Key system features are: 1024 x 800 bit-mapped graphics display, UNIX, C and FORTRAN software support, M68000 CPU, multibus, parallel bus and ETHERNET communications. Additionally, the company markets GNC (Graphics Numerical Control), a software package for Numerical Control and CAD/CAM applications.

Booth 1208 **CALCOMP**

**Marketing Engineer**

Datcopy is demonstrating its line of CCD array digitizing cameras. The high resolution C322 offers 1720 x 2592 picture elements. The economical C312 provides 512 x 640 resolution. The C324 "multiple resolution" digitizing camera can be configured in any resolution to 1280 picture elements in X and Y dimensions and in any aspect ratio (1:1, 4:5, 3:4, 1:1.29). The cameras provide higher resolution than video, usually require less illumination, and do not have the blooming, burning, gain and offset problems of vidicon tubes. Applications include high resolution image recognition, storage or reproduction for teleconferencing, photocopying, facsimile, electronic mail, micrographics, OCR, CAD/CAM, and computer graphics.

Booth 1732 **DATAcube, INC.**

4 Dearborn Road  
Peabody, MA 01960  
(617) 535-6644  
**DANIEL P. HOSKIN**  
Sales Manager

Datacube boards digitize and display information in real time from standard video cameras for MULTIBUS and Q-BUS systems — without host computer intervention. These boards provide reliable, low cost vision for robotics, inspection, medical imaging, teleconferencing, animation, etc. Available for both monochrome and color monitors.

Data Design Logic Systems manufactures a complete line of high quality intelligent digital pen plotters. The 4-pen drum plotters are available in 15", 26", 37" and 48" widths; flatbed sizes are "D" and "A1". The integral, intelligent controller, common among all units, requires no special host software. These sophisticated units can work as easily with microcomputers as with mainframes in any language with any operating system under any revision level.

The AutoGraph Graphics Display Terminals, both color and monochrome, are low cost Teletronix-compatible units for both large and small computer systems. Users of large system graphics packages like Tell-A-Graf, PLOT-10 etc. can expand the use of their systems with low cost "preview" terminals and fast, localized "scratch pad" printing. High and low resolution displays, various input and output options available.

DS1 is an Electronic Schematic Input System and Data Base Capture System for interfacing to PCBoard Routing Systems (REDAC, SCICARDS<sup>TM</sup>, AUTOMATE and ASI Prance, etc.). Interfaces available for interfacing to Wire Wrap and Simulation, DS1 is the only system which allows for data capture in a Non-Gridded Mode via digitizer. Vocal Output Unit talks to operator and data is captured on an IBM personal computer. Data is then transmitted to host computer for processing. Computer straightens out crooked lines and inputs real size symbols. Edits are performed in minutes due to Non-Gridded Mode.

GTI announces a breakthrough in high performance graphics technology — a polygon based real time display with capabilities rivaling a multi-million dollar flight simulator. Based on a multiple bit-slice architecture, the GTI Advanced Graphics System implements a proprietary scan-line hidden surface algorithm, allowing realistic pictures of complex 3-D objects to be displayed on a standard RGB monitor. The real-time display (30 frames per second, interlaced) allows the user to interact with the displayed database. Other features include: 16-bit homogeneous coordinate representation; full perspective transformations using concatenated 4 x 4 matrices; X, Y, and Z plane clippings; display of over 512 edge intersects per scan line; 640 x 640 pixel display with over 16 million colors; automatic intensity shading of polygons based on a "moveable" light source; and software routines to support a hierarchical graphic data structure.

Industrial Data Terminals manufactures the first and only color graphics terminal with bubble memory. The IDT-2200 with bubble memory storage in the terminal, establishes a new standard in color graphics capability and reliability. Non-volatile bubble memory allows you to retain permanent displays in the terminal, and ensures data integrity even in the harshest environment. The IDT-2200 uses a subpicture architecture which permits rapid display and change of total pictures and/or segments with a single command.

Integrated Terminals will exhibit its line of Color Graphic Terminals which utilizes a 12" high resolution in-line gun color CRT to display 24 80-character lines. Eight colors are selectable on a foreground/background combination. In addition to the standard 96 ASCII character set, there are 128 user defined symbols available. The terminal interfaces via RS-232 or current loop at up to 9600 baud to a host computer. Editing features include line insert/delete,

## Exhibitor Listing

character insert/delete, erase page, scroll/page mode, and block transmit/receive. Display attributes include double high/double wide characters, blink, underline, and blank. All editing and attributes are implemented using control/escape sequences from the host computer.

Photonics Technology manufactures standard and custom size display terminals, including the world's largest non-projected display — a flat, 1/2-inch thick, transparent, meter-diagonal, AC gas discharge (plasma) display panel with a viewing area of over 5.3 square feet and a resolution of over 2500 pixels per square inch. Smaller area displays range in size from a few centimeters up to one meter. Larger displays up to three meters are being developed. Display resolutions range up to 10,000 pixels per square inch or more.

Essex Junction, VT 05452  
(802) 879-6547  
E.B. BLOOD  
Director of Special Projects**

Polhemus Navigation Sciences introduces a unique three-dimensional digitizer. The digitizer is a true six degree of freedom measurement device which allows the user, with a held stylus, to determine the X, Y, Z coordinates of a point located on a non-conductive, three-dimensional model. This data, along with the orientation of the stylus, is immediately available for computer usage. Initially developed to provide a fast, error-free means of digitizing models for a computer generated imagery data base, the digitizer can be used to digitize engineering models, collect dimensions from piping and plant layout models and provide position and orientation input for animation.

PrintaColor manufactures a complete line of ink-jet color hardcopy devices for use with a variety of color graphics computers and terminals. These models — including the GC8000, IS8001, HR8002, GP1024 and a modular system for OEMs — operate either on a

character addressable or dot addressable basis. All models incorporate three basic inks and overlay to get seven colors, plus white (paper). Interfaces are available for graphics computers manufactured by Intelligent Systems, Chromatics, IBM, Apple and others. All models interface via RS-232C or Centronics-compatible I/O ports.

Booth 2526 **QUADRAM CORP.**

SAS Institute will exhibit SAS/GRAPH, a SAS program product that provides device-intelligent color graphics. SAS/GRAPH is used in business and research for presentation and information graphics applications. Several colors, patterns, and font styles can be used for titles, footnotes, and notes. More than 12 procedures are available for plotting; displaying bar, pie, star, and block maps; making slides; and replaying stored results for management presentations. Major graphics devices are supported. SAS/GRAPH users must have SAS; SAS runs on IBM 360/370/30xx/43xx and compatible machines in batch and interactively under OS, OS/VS, VM/CMS, DOS/VSE, and TSO.

Science Accessories manufactures a complete line of 2-Dimensional and 3-Dimensional Graf/Pen Sonic Digitizers. 2-Dimensional Sonic Digitizers include the microprocessor based GP-6 with active area up to 60" x 72" and offer length, area, scale and axis programs, to name a few. The GP-7 GRAFBAR, with an active area of 18" x 24", has the largest digitizing area of any of the low cost digitizers available. The 3-Dimensional digitizer permits digitizing volumes of up to 10' x 10' x 10' and outputs real time XYZ cartesian coordinates. Multiplexer option permits up to 16 different points to be digitized at any one time.

Sky Computers manufactures a line of floating point array processors for microcomputer systems. These 32-bit high speed processors perform up to 1 million floating point operations per second. Sky offers these systems for the Q-Bus (LSI-11), Multi-Bus (8086) and VersaBus (MC68000). The units plug directly into the host bus and directly access up to 16 megabytes of host memory. Sky supports these "micro number crunchers" with a library of subroutines, callable from a user's application program. SKY MNK ARRAY PROCESSORS are able to perform many graphics functions such as coordinate transformations and 3-D rotations, as well as image processing functions such as differencing, edge detection, and pattern recognition at speeds up to 300 times faster than the microcomputer alone.

**CHUCK HYP**  
Product Supervisor

Industrial Optics will be exhibiting a line of visual comfort systems which make viewing a full color CRT more comfortable. The Visual Comfort Systems combine a very high resolution anti-glare treatment on a "micro-louvered" film which reduces glare and improves contrast while maintaining high on-axis transmission.

## General Information

## ■ AUDIO/VISUAL FACILITIES

### AUDIO/VISUAL HEADQUARTERS

The Audio/Visual Headquarters, located in the Dalton Room of the Sheraton-Boston, provides general audio/visual assistance, including slide carousels, blank slides, and reservations for the Attendee Preview Room. The Headquarters is open 9 a.m. to 10 p.m. on Sunday, 8 a.m. to 7 p.m. on Monday through Thursday, and 8 a.m. to 5 p.m. on Friday.

### ATTENDEE PREVIEW ROOM

The Attendee Preview Room is located in the Clarendon Room of Sheraton-Boston and is available to attendees for sharing their work informally with small groups. The Preview Room is equipped for 3/4" U-MATIC video playback and 16 mm sound film projection. The Preview Room may be reserved by contacting the A/V Headquarters.

### SPEAKERS' PREP ROOMS

A number of Speakers' Prep Rooms are available. Facilities are provided in each Prep Room for 3/4" U-MATIC video tape cue-up, 35 mm slide organization, and rehearsal. In addition, 3/4" U-MATIC video tape dubbing is available in the Speakers' Prep Room in the Sheraton-Boston.

Please note that a limited number of slide carousels are available at each location. Therefore, if sufficient time is available or if several slide carousels are required, please check them out from the Audio/Visual Headquarters.

SHERATON-BOSTON - Gardner Room  
(3rd Floor)

OPEN:

Sunday, 10 a.m. - 10 p.m.

Monday through Thursday, 8 a.m. - 7 p.m.

Friday, 8 a.m. - 2 p.m.

## General Information

COPLEY PLAZA - Directors Room (Lobby)  
OPEN:

Monday and Tuesday, 8 a.m. - 5:30 p.m.

PARK PLAZA - Dartmouth-Exeter Room  
(Mezzanine)

OPEN:

Monday and Tuesday, 8 a.m. - 5:30 p.m.

MERIDIEN - Palmer Room (Lobby Level)

OPEN:

Monday and Tuesday, 8 a.m. - 5:30 p.m.

MARRIOTT - Faneuil Room (1st Floor)

OPEN:

Monday and Tuesday, 8 a.m. - 5:30 p.m.

### ■ CHILD CARE

Child care information is available at the Information Center in the Hynes Auditorium conference registration area.

### ■ DRESS

Casual dress is acceptable at all SIGGRAPH '82 meetings and events. For dining out in Boston, casual dress is accepted in many dining establishments; however, jackets and ties are required in some locations. The conference committee recommends guests check dress code requirements when restaurant reservations are entered.

### ■ FIRST AID

A registered nurse is on duty Saturday, Sunday, and Monday from 8 a.m. to 5 p.m., Tuesday and Wednesday from 9 a.m. to 6 p.m., and Thursday and Friday from 9 a.m. to 5 p.m. The first aid room is located on the first floor of Hynes Auditorium, on the left as you enter the exhibition area, immediately after the rest rooms and adjacent to the Auditorium Commission Office.

## ■ HOTELS

### **PARKER HOUSE**

Tremont and School Streets  
617 227-8600

## General Information

### **SHERATON-BOSTON HOTEL**

Prudential Center

617 236-2000

The Sheraton-Boston Hotel connects with the Hynes Auditorium. During hours when exhibits are open, conference attendees may enter the second level of Hynes Auditorium through an entrance on the third level of the Sheraton-Boston Hotel.

### ■ **HOUSING ASSISTANCE**

A representative from the Greater Boston Convention and Tourist Bureau will be available at the housing desk in the Hynes Auditorium during registration hours on Monday and Tuesday to advise registrants regarding available accommodations in Boston.

### ■ **INFORMATION CENTER**

A conference Information Center located in the conference registration area at Hynes Auditorium is open to assist SIGGRAPH '82 guests beginning 1:00 p.m. on Sunday, July 25, and thereafter during official registration hours.

### ■ **LUGGAGE CHECK AREA**

A Check Room area is provided in Hynes Auditorium for the convenience of SIGGRAPH '82 guests departing directly for the airport from the conference.

### ■ **MERCHANDISE SALES**

A special desk is provided in the Hynes Auditorium registration area for the sale of SIGGRAPH '82 T-shirts, extra reception tickets, extra copies of the conference proceedings, course notes, and art show catalogs. This desk will be open beginning at 1:00 p.m. on Sunday, July 25, and thereafter during regular registration hours.

## ■ MESSAGE CENTER

A Message Center for SIGGRAPH '82 attendees is located in the conference registration area at Hynes Auditorium. The Message Center telephone number is: 617 262-8100

Message Center personnel also will accept personal messages from one conference participant to another. The Message Center is open 8 a.m. to 6 p.m. Monday through Thursday, and 8 a.m. until 3 p.m. on Friday.

## ■ PRESS BRIEFING

A press briefing is scheduled on Tuesday beginning with a continental breakfast at 8:30 a.m. in the Fairfax Room. SIGGRAPH '82 officials will provide a conference overview and escort press representatives on an early walk-through of the exhibition.

## ■ PRESS ROOM

The Sheraton-Boston's Exeter Room is the base for all SIGGRAPH '82 press operations including press registrations. The Press Room is staffed to serve press representatives 3 p.m. to 8 p.m. on Sunday, 8 a.m. to 6 p.m. on Monday through Thursday and 8 a.m. to noon on Friday.

## ■ REGISTRATION

Course participants who registered in advance may pick up registration materials at the conference registration area in the Hynes Auditorium prior to the day of their first scheduled course. Course registration materials not claimed at Hynes Auditorium are available for pickup at the course location beginning 7 a.m. on the course date. Registration materials for courses scheduled at the Sheraton-Boston Hotel will remain available for pickup at the conference registration area in the Hynes Auditorium. This applies to advance registrants only.

## General Information

All new registrations for courses, the technical program, and/or the exhibition must be handled at the conference registration area in Hynes Auditorium.

Registration hours are:

SUNDAY,	July 25	1 p.m. - 9 p.m.
MONDAY,	July 26	7 a.m. - 5 p.m.
TUESDAY,	July 27	7 a.m. - 8 p.m.
WEDNESDAY,	July 28	8 a.m. - 5 p.m.
THURSDAY,	July 29	8 a.m. - 5 p.m.
FRIDAY,	July 30	8 a.m. - 11 a.m.

All press registrations are handled in the Press Room in the Exeter Room of the Sheraton-Boston Hotel.

### ■ SIGHT SEEING

Guidance on things to do and see in historic Boston is available at the Information Center in the Hynes Auditorium conference registration area.

## General Information

### ■ TRANSPORTATION

Complimentary shuttle bus service is provided throughout the conference for SIGGRAPH '82 attendees. On Monday and Tuesday evenings and during peak transportation hours on Wednesday, Thursday, and Friday, the buses will run directly between the following hotels and the Hynes Auditorium:

**ROUTE 1** - Boston Marriott Hotel Long Wharf  
Hotel Meridien

**ROUTE 2** - Boston Park Plaza Hotel

**ROUTE 3** - Copley Plaza Hotel

At all other times the buses operate on a shuttle route stopping at each of the following locations:

Boston Marriott Hotel Long Wharf  
Hotel Meridien  
Boston Park Plaza Hotel  
Copley Plaza Hotel  
Colonnade Hotel  
Sheraton-Boston Hotel  
Hynes Auditorium

Most of the other hotels are within walking distance of a hotel where the shuttle will stop. For Parker House guests, a special mini bus provides transportation to the Boston Park Plaza, and the shuttle buses can be taken from there.

Bus service is provided during the following hours:

SUNDAY,	July 25	1:00 p.m. - 9:30 p.m.
MONDAY,	July 26	7:00 a.m. - 11:00 p.m.
TUESDAY,	July 27	7:00 a.m. - 11:00 p.m.
WEDNESDAY,	July 28	7:00 a.m. - 11:00 p.m.
THURSDAY,	July 29	7:00 a.m. - 11:00 p.m.
FRIDAY,	July 30	7:00 a.m. - 4:00 p.m.

Full details on pickup locations and schedules are given on signs in each hotel lobby.

**SIGGRAPH '83**

## **'83 Call for Participation**

**Tenth Annual Conference on Computer  
Graphics and Interactive Techniques  
July 25-29, 1983  
Detroit, Michigan**

Sponsored by the Association for Computing Machinery Special Interest Group on Computer Graphics, in cooperation with the IEEE Technical Committee on Computer Graphics, Eurographics, and the Engineering Society of Detroit.

### **CONFERENCE INFORMATION**

SIGGRAPH '83 Conference Office  
111 East Wacker Drive  
Chicago Illinois 60601  
(312) 644-6610  
Telex: 25-4073 SBA

### **THE CONFERENCE**

SIGGRAPH '83 will be the tenth annual conference of ACM's Special Interest Group on Computer Graphics. In these ten years, the conference has grown from a small group of graphics experts meeting in a university residence to one of the largest technical conferences in the country. The conference now boasts an extensive exhibit of computer equipment (200,000 sq. feet have been booked in Cobo Hall for this year's show) and two evenings of outstanding films and videotapes produced with the aid of computer graphics. A comprehensive set of courses precedes the conference.

A consistent feature of the conference has been the technical program. SIGGRAPH conferences have been fortunate to be able to present papers detailing the most recent developments in graphics software, hardware, and interaction techniques. Each year the proceedings become a standard reference.

## **PAPERS**

SIGGRAPH '83 invites the submission of previously unpublished papers in all areas of computer graphics and interactive techniques. Appropriate topics include display techniques, graphics software systems and languages, graphics hardware, interactive techniques, and any applications of graphics. Feel free to call or write the Technical Program Office to discuss the appropriateness of any intended submission. A more detailed "Guide to Authors" is available from the Program Office.

Video or film material that is an integral component of the work must accompany the paper.

Papers accepted will be published in the Conference Proceedings, a special issue of Computer Graphics. The video portion of accepted papers will be published in the SIGGRAPH Video Review.

All submissions should conform to CACM publications standards (published in the Summer of 1982). It is strongly recommended that papers not exceed 5000 words. Five copies of each submitted paper should be sent to the Technical Program Chairman by December 1, 1982. Papers must include a 100 to 300 word abstract. Acceptance notification will be made by March 14, 1983 and final papers are due on May 2, 1983.

## **PANELS**

Panel proposals should include a description of the topic issues (for publication in the proceedings) and the names of at least three suggested panelists.

Send two copies of panel proposals to the Panels Chairman by February 14, 1983. Acceptance notification will be made by March 14, 1983.

## '83 Call for Participation

### FILM, VIDEO, ART, COVER DESIGN AND INSTALLATIONS

Late in 1982, a separate Call for Participation inviting submissions of films, videotapes, art work, and installations will be available from the Technical Program Office. The submission deadline for film and video is June 24, 1983. There will be an April 1, 1983 deadline for submissions of installation demonstration proposals and for photographs or slides of drawings, graphics art, sculpture or murals for the proceedings cover and the art show.

### TECHNICAL SESSION CHAIRMAN

Peter Tanner  
SIGGRAPH '83 Technical Program Office  
Division of Electrical Engineering  
National Research Council  
Ottawa, Ontario, Canada
